

Layered**Solutions**

SMS TEXTING & BROWSER INTEGRATION

Enable better, faster decisions by leveraging stakeholders' digital habits.

PRODUCT OVERVIEW

- Bring decision-makers together, using the very tools they already use: mobile texting and web.
- Low-cost solution integrates and magnifies technology you already have.
- Browser-based paging accessed from any location and any browser.

PRODUCT BENEFITS

- Immediate yet discreet delivery of time-sensitive instructions.
- Eliminate wasteful delays and manual processes to deliver critical information to multiple recipients at the same time.
- Minimal startup cost as solution integrates with and magnifies what you have now.

PRODUCT FEATURES

- Speak or text from a smartphone to page other smartphones.
- Easy interface with Explorer, Firefox, Chrome, and Safari browsers.
- Outgoing and incoming Simple Network Paging Protocol (SNPP).
- Text messaging to Vocera Badges.
- Incoming text alerts from Massimo heart monitoring.
- Common Alert Protocol (CAP), RSS, Twitter feeds.

Technical Specifications

REQUIREMENTS

SMS messaging is a service-based solution requiring a price per SMS message (monthly cost) and a one-time license per pager.

Software

- Text Messaging / Paging Module
- Tier 1 License per end device

Equipment

- Server Platform - one of the following components:
 - ▶ Small Intel Server: Model-NUC Small Form Factor (LSI-H10200)
 - ▶ Dell Server: Dual Power, Hardware RAID (LSI-H10302)*
 - ▶ Virtual Server: Requires client to provide virtual environment and network/tech support
 - ▶ Customer Provided Server: Minimum server requirements*

Network

Server

- 1 static IP, subnet, gateway, DNS, per device
 - ▶ 3 static IPs, subnet, gateway, DNS, per device if using a redundant configuration
- Standard power (110V or 220V) per server
- Ethernet network connection required for each server
- UPS recommended
- It is the responsibility of the customer to appropriately configure their network equipment so that the server pair appears to be residing on the same network and subnet.
- *NOTE: Serial and parallel ports have been disabled on the LSI server*

* optional redundant configuration
